SUMMARY

Innovative and creative data science student, currently a Master's student in Data Science and Analytics and Seeking for a Data Scientist role from September, I am eager to analyse and build models that solve real-world problems.

EDUCATION

Masters in Data Science and Analytics	Sept. 2021 – Present
EPITA School of computer science and Engineering	Paris, France
Bachelor of Technology in Computer Science and Engineering	Aug 2016 – July 2020
Jain university	Bangalore, India

WORK EXPERIENCE

Software Engineer	July 2020 – July 2021
Cerner healthcare Pvt Ltd	Bangalore, India

- Data Analysis and Exploration in Python
- Design, code and Deploy requirements following SDLC.

Software Intern	Feb 2020 – July 2020
Cerner Healthcare Pvt Ltd	Bangalore, India

- Created Application which dismiss exception without disruption program

SKILLS

Programming:-Python, Streamlit, Pandas,Keras,Tensorflow, scikit-learn, JAVA. C Sharp
Technical:- Machine Learning,Deep learning,NLP , Relational database (MySQL, PostgreSql), MongoDB, Model pipeline, data monitor, Docker
Tools: Dataiku, Jupyter, Tableau, Airflow, GIT, Microsoft word, Excel, Jira
Soft Skills: Communication, problem Solver, Agile/Scrum , team player,

PROJECTS AND RESEARCH

BookMySpace - Empty Space utilization | *NodeJs, AngularJs, Firebase*
A PWA(Progressive Web App) which helps user to book empty spaces on hourly rent

Machine Learning based Loan prediction Website| *KNN, FastAPI Airflow, Heroku, Docker*
A website where it predicts user will return the loan or not.

Fake news and profantiy detection| *Python, NLP, Streamlit, ML, Heroku*
A web app which predicts whether the news is fake or true and does it contains profane words.

PUBLICATIONS AND AWARDS

- Best Project of the Year for BookMySpace (July 2020)
- Published Paper on BookMySpace in IRJET (June 2020).

HOBBIES

- Beat boxing, kaggler

LANGUAGE

- English,French,Hindi
